

# Crossing Bodies

Postcolonial Visions

**Routes Agency** is pleased to invite you to *Crossing Bodies* - Postcolonial visions at the Museo Nazionale Preistorico Etnografico "Luigi Pigorini" of Rome as part of the projects *Idee Migranti* within the exhibition *[S]oggetti migranti* from the 1st to the 15th of December 2012.

Being migrant means living in a boundary between here and everywhere else, before and after, inside and outside, between stories and memories.

*Crossing Bodies* speaks of contemporary migration and identity from a post-colonial point of view, with a critical approach to the stereotyped and rhetorical visions that many times characterize the study and representation of these subjects.
